

I would like to comment on my local Air-1 Station, KJBR: 93.7 in Marked Tree, AR. We are blessed as a community to have a station that plays music with a positive message. This is a wonderful service to our community, as it gives people a viable alternative to the messages they hear on other radio stations. As a community, if this station were to be removed, I think it would be socially detrimental in that we would no longer have a station that brings messages of hope and love to our radios.
